

**INSTRUCTION**Curriculum Guides

Curriculum guides and/or program descriptions shall be maintained in all subject and instructional areas. They shall be periodically revised to meet the needs of the instructional program, and to ensure that they are reflective of the Virginia Standards of Learning.

Curriculum guides and course outlines shall be developed by teachers in cooperation with the division supervisory staff and outside resource persons as necessary. The basic objectives shall be clear, measurable and attainable by the division's students. Programs and courses shall provide flexibility to meet the needs of individual students.

The superintendent shall annually budget, and the board will support, to the extent financially feasible, funds to be used in developing these important guidelines.
